PREFACE

This publication provides data about staff, enrollment, number of public schools and special education student count. The information was compiled from local school district reports submitted to the State Department of Education. Staff information is prepared from the professional staff list and fall report of staff; special education student count is prepared from part II of child count form.

The tables on staffing give whole numbers (head-count) of total certified and non-certified staff; certified staff members are also reported as full-time equivalents. It should be noted that some districts consider custodians and bus drivers as dual purpose but they are counted only once.

The tables on teachers/pupils/school report full-time equivalent classroom teachers; special education teachers and instructional support personnel are excluded. The numbers of schools are counted in the same way as they are listed on the enrollment tables; that is, an elementary school may be K-5, K-6, 4-5, 1-8, etc.; a senior high school may be 9-12, 10-12 or 7-12. Junior high or middle school may span any grades from 5 through 9. Special schools are those operated exlusively for handicapped students.

The tables on fall enrollment give a count of pupils enrolled as of September 17, 1986. Special education students have been included in the regular enrollment count by grade whenever possible.

The tables of handicapped data reflect the non-duplicated/non-dual enrollment pupils by district. These pupils have been included in the regular fall enrollment count by grades. Individual school enrollment data for handicapped was not collected.

If you would like any additional data, please contact Data Collection, State Department of Education, Hathaway Building, Cheyenne, Wyoming, 82002-0050, or call 777-7623.

March, 1987

Lynn Simons, State Superintendent of Public Instruction
